

Mediterranean Estate, Malibu, California

Treat yourself to true continental elegance at this sprawling five bedroom home whose natural stone walls and tiled roof draw inspiration from classic Italian villas. This beautifully landscaped property features sweeping panoramic views. A circular driveway flanked by leafy palms and a three car garage leads the way to the front entrance. There is a gorgeous heated pool and hot tub surrounded by a terrace, beautiful rolling lawns and olive trees. An outdoor kitchen and barbecue area allows you to grill up a feast to enjoy around the al fresco dining table or in the gazebo area overlooking the view. Inside, exposed stone, archways and a Terracotta color palette add to the Mediterranean feel. Luxuriously soft sofas and wooden furnishings lend comfort and refinement to the spacious living room. There is a fully-equipped bar area, and a second living room where a fireplace and antique piano add a touch of sophistication. The professionally-appointed kitchen features high-end appliances and smooth stone surfaces.

All five bedrooms boast individual decor of the finest furnishings, linens and en-suite appliances and fixtures. The Master suite has a lovely ocean view, visible from its King size bed and chaise lounge. It also holds a sitting room, en-suite bathrooms and private balcony access. The four remaining bedrooms each have en-suite bathrooms. One is ideally suited for children, housing two twin beds and a crib. The Mediterranean Estate is your gateway to SoCal living. The legendary Malibu beaches are only a mile away and the Pacific Coast Highway can be the catalyst for unforgettable day trips. You'll find shopping, dining and nightlife options close at hand, but the glamour and glitz of Los Angeles is easily accessible. Rodeo Drive, Sunset Strip and downtown L.A. are all less than 30 miles away.
